

## **THE NEXT STEP:**

It was my goal to present, Method's, Techniques and Practicum's for raising a child with autism. To this end there are a few things you should walk away with after reading this book. You should have a clearer understanding of;

- 1. Autism (Causes and Affects).**
- 2. The issues one must face when raising a child with autism.**
- 3. Helpful techniques and information on different views, options, and choices of raising a child with autism from infancy to adulthood.**
- 4. Helpful hints on how to manage behavior.**
- 5. Helpful techniques to process your feelings concerning your child with autism.**
- 6. How to prepare the child and family for transitioning from one stage of life to the next.**
- 7. How to take control of the situation and turn a challenge into an opportunity for greatness in the life of someone you love with autism.**

- 8. How to evaluate the effectiveness of the actions taken.**
- 9. Transiting from School/Day Program/Work Study/Semi-Independent Living.**
- 10. New Theory on Autism.**
